Personal precautions, protective equipment, and emergency procedures	Keep unnecessary personnel away. For personal protection see Section 8 of the SDS. Avoid release to the environment
Methods and materials for containment and cleaning up	<p>Small Spills: Wipe up with absorbent material (e.g., cloth, fleece). Clean surface thoroughly to remove residual contamination</p> <p>Large Spills: Stop the flow of material if this is without risk. Dike the spilled material, where this is possible. Absorb with an inert material such as vermiculite, dry sand or earth and place into suitable containers. Following product recovery, flush area with water</p>
Environmental Precautions	Never return spills in original containers for re-use. For waste disposal, see section 13 of the SDS. Avoid discharge into drains, water courses or onto the ground
